SUMMARY

I come from a strong engineering background with a focus on consumer and mobile applications. With experience at top companies including Apple, Beats Music, Samsung, Nokia, and Qualcomm, I am a leader who gets the job done and can architect scalable, service-oriented systems. I know how to build a core team with a clear direction to construct a quality product.

EXPERIENCE

DWELL

Vice President of Engineering

San Francisco, CA

Jan. 2015 - Nov. 2016

- Joined Dwell to shift the the company's focus from media to a software company.
- Built a new online community for dwell.com and iOS app -- launched in August 2016.
- Led the recruiting and management of the API, Web, iOS, and QA teams.
- The API, Web, and iOS apps were built in javascript using Node.js, React, and React-Native.
- Worked closely with product to turn roadmaps into actionable engineering processes.

APPLE
